The out kismet

The out restaurant kismet fire island. The surfs out kismet. The out restaurant kismet. The out kismet menu.

Kismet is one of my favorite cities in Fire Island. It's small, easy to arrive, and has a good mix of singles, couples and families. This is the place where I go when I want to relax, but still enjoy a little nightlife. As the western city on Fire Island, Kismet is easily accessible from Robert Moses State Park and the Fire Island Lighthouse. This makes the place perfect to visit if you want a fire Island taste without the expense of riding the ferry. You can also get it here by boat. Docking is available in the 40 Slip Kismet Inn Marina (first to arrive, first serve) or you can anchor out and walk the coast like me. The \$ 40 per day and \$ 100 rate overnight marina are totally refundable à € à € à € œ with the restaurant, it is just ask for the master dock for a voucher. The city center overlooking the bay houses two restaurants, a pizzeria and a small grocery store with atma everything inside each other. There are benches around the mast and along the supermarket wall so you can rest the tired feet à € à € œ
